

# Treat and prevent Hemorrhoids

**R**eliable [piles treatment](#) is something that is highly important. Hemorrhoids, which are also known as piles, are a severely unpleasant condition. They can be very difficult to get rid of, and they are able to keep on for a very long time. If left untreated, you might really have to have surgery. Of course, I am positive you do not desire this to happen at all.. If you treat them timely enough then all of this can be prevented. This article will canvass the causes of [hemorrhoids](#) and a useful [piles](#) treatment.

- [Hemorrhoids](#) can be described as masses or bumps in the anal canal.
- When they become inflamed they can produce a very painful throbbing feeling.
- These lumps contain blood vessels and elastic muscle tissue.
- They are in fact always present, but you only notice them if they become inflamed.
- For more info check out Hemorrhoid Cure and [Hemorrhoid Relief](#).

## Piles can be Brought about by a Variety of Different Things

One of the most critical things is your diet. If you don't have enough fiber in your diet, this is one of the main causes. Chronic straining during a [bowel](#) movement can also bring about hemorrhoids. Being pregnant is another prevailing trigger.

- An efficient way to avoid getting hemorrhoids in the first place, is to eat a high fiber diet.
- If you take Metamucil or some other fiber supplement every day this is a good first step.

“

***Internal Hemorrhoids Treatment - How to treat Internal Hemorrhoids** There are two types of hemorrhoids - the internal hemorrhoids and the external hemorrhoids. The only difference between the two kinds is it placement in the anus area. Internal type is located inside the anal canal, while external is found outside...*

You are unlucky enough to have an unpleasant hemorrhoid then you are going to prefer a piles treatment as soon as possible. Of course one of the first steps you should take is to ask your doctor. Your doctor will know if your condition is serious enough for surgery or not. For more information on when you need to consider surgery visit [Hemroid Cure](#) and [Hemroid Relief](#).

## Have Found that the Lotions that You Get With the Local Pharmacy Don't Really Help Much

I think that you have experienced the same thing and that's why you're here now. I have found that when I take a lot more fiber my hemorrhoids go away. Most doctors recommend this as well. You should take some type of fiber supplement every single day. This is more than likely the most popular piles treatment.
